October 3 102-05 10685-WGY Document 270 Filed 10/14/25 Page 1 of 8 Am. Ass'n of Univ. Professors turn page Marco Rubio Civil Case No. 1:25-cv-10685-WEY In The United States District Court For The District of Massachusetts To The Honorable William G. Young Motion To Intervene In Civil Case No. 1:25-cv-10685-WGY and To Disquality Judge William G. Young From Presiding Over The Above Case I, Joshua Hall, hereby bring forth this motion to intervene in the above-captioned case as an interested party and to disqualify Judge William G. Young from presiding over this case on the following grounds. 1) As an American taxpayer who funds the government grants that the universities at issue in this case benefit from, I have a vested interest in the outcome of these proceedings in terms of what sort of speech these non-citizen students are allowed to engage

next page

and protections that actual Americans are entitled to and may have their student visas revoked and be removed from our country at will at any time by the executive branch. These non-citizens are foreign alien enemies of our country whose unauthorized pro-Hamos speech risks inciting actual terrorist attacks against not only American Jews, but all Americans. The President of The United States has designated Hamas, the organization with which the non-citizens in this case align and affiliate with, to be a foreign terrorist organization. By extension, the non-citizen plaintiffs are either terrorists or terrorist sympathizers and their speech (which is not protected by The First Amendment) and very presence in our country is a national security threat to my life and the lives of all Americans. I therefore have established standing and have a vested interest in the outcome of these proceedings. I am also one of the 80 million Americans who voted for President Trump and hence I have a vested interest in not having the agenda that I elected him to carry out (which includes removing these terrorist sympathizers from our country and cutting funding from the universities that enable their anti-America behavior) illegally and unConstitutionally infrinced upon and undermined by an un-elected district judge. It is an egregions act of indicial overreach and a conspiracy against the rights of the American people to elect our own leaders to enact

our agenda in a free and fair election. This is animum

unprecedented assault on a duly-elected President, those of us including myself who voted him into office and American democracy itself, I therefore have an interest in ensuring that a co-equal branch of government is not able to sabotage the chief executive's duties and responsibilities to "take care that the laws be faithfully executed that I elected him to carry out. This is especially true when a district court is acting unconstitutionally and illevally and with demonstrated political bias and malice against those of us who elected this President and in favor of designated foreign terrorists, Finally, I am a Republican candidate for US Conoress in Pennsylvania's 10th Congressional District. This case directly impacts my candidacy and the lives of my fature constituents as well as our rights. I am running on an agenda of removing these non-citizen terrorist sympathizers from our country and defunding these universities that are enabling and supporting them with respect to this issue. To have an un-elected federal indge misuse and overstep his Constitutional anthority to illegally obstruct the duly-elected President of my political party as well as myself from carrying out the will of the voters is a violation of the separation of powers and constitutes a never before seen weaponization of the federal indicinry that unlawfully strips power away from the executive branch and the legislative branch of government, which I am the leading

Republican candidate in this district to become a partimum

of as a representative of the people. The outcome of this case thus affects my lawful anthority as a legislator, my voters and by an extension-my electability. I therefore have established standing as an interested party to intervene in this matter on the grounds of my candidacy for Congress, as well,

2) A federal judge has a duty to recuse himself from any proceeding in which his impartiality might reasonably be questioned. In this case, it is fair to say that it would be well beyond the standard of just "reasonable" to enestion the impartiality of Judge Young, He recently used this case as a means of enonging in partison anti-Trump political activism from the bench He went on a highly personal, unhinged rant against President Trump in a recent opinion issued on this case that had absolutely nothing to do with the case or its merits. Because members of The Trump administration are the defendants in this case, any reasonable observer would conclude by virtue of Judge Young's anti-Trump rhetoric that he is biased against defendants and in favor of plaintiffs, Therefore, he can not fairly and impartially administer justice in this case and his continuing to preside over it would be highly detrimental to the reputation of these proceedings and unethical. Judge Young included as a part of his remarks a famous anote by President Ronald Reagan, who appointed him to the bench, about freedom being just one generation away from extinction, Inminimum

turn page

follow-up to this quote, he stated, "I've come to believe that President Trump truly understands and appreciates the full import of President Reagan's inspiring message-yet I fear he has drawn from it a darker, more cynical message, I fear President Trump believes the American people are so divided that today they will not stand up, fight for, and defend our most precious constitutional values so long as they are fulled into thinking their own personal interests are not affected. Is he correct? This statement capped off a proces-lose tirade against President Trump that called him a "bully", accused him of violating Americans rights and ignoring the Constitution. It is beneath a federal judge to engage in such petty, partisan attacks that have nothing to do with the case at issue. At a time when Americans trust in our nation's once-revered indicinry is at an all-time low, with allegations of political bias and weaponization from the bench left and right, Judge Young's inflammatory comments serve to only further erode that trust. The irony of his remarks is that it is actions of federal judges like himself, not Presidents Trump, that are the actual threat to our treedoms. Un-elected indues who not a single person voted for illegally infringing on a co-equal branch of government to block the President from implementing the agenda that we the people elected him to in a free and fair democratic process is a far greater threat to liberty than anything

President Trump has done, He is simply enforcing our, minute

Case 1:25-cv-10685-WGY Document 270 Filed 10/14/25 Page 6 of 8 (6) 8 (6) 8 (7) 8 Page 6 of 8

next page nation's laws which is a lawful exercise of his Article II powers rather than aiding the terrorist sympathizers at issue in this case who seek the destruction of our country. President Trump, like the President who appointed Indoe Young, is a devout Constitutionalist who protects and respects the Constitutional rights of every American citizen. Trump has been compared to a modern-day Rengan by prominent individuals who served in the Rengan administration, Based on his rontings and ravings, it would seem that it is Indee Young himself-and not President Trump-who is ignoring our Constitution and Article II in particular. The strange thing in this as well as all of the other cases involving this unprecedented indicial overreach against our President is it seems to be the non-existant Constitutional rights of terrorist-sympathizing illegals that these blatantly left-wing partisan undoes are laser focused on protecting without any regard for and often at the expense of the God-given Constitutional rights of actual Americans, I and millions of my fellow Americans find this to be a travesty of justice and an attack on our most cherished rights not by the executive - but by the federal indiciary. In order to restore some semblance of integrity to our nation's sudiciary, Judge Young has a duty to - and in fact must-Disquality himself from presiding over all future proceedings in this case. The American people demand and deserve

nothing less than fair, impartial, apolitical judicial officers

who stay within their very important Constitutionally minimum

proscribed role of simply "soying what the law is and nothing more, Given Judge Young's clearly expressed disdain toward President Trump on a personal level and political bias against his administration, who are the defendants in this case, any reasonable observer would go far beyond inst questioning his ability to impartially administer justice here. It is in solidarity with President Donald J. Trump and the good people of Pennsylvania's 10th Congressional District that I therefore respectfully move to intervene as an interested party in Civil Case No. 1:25-cv-10685-WGY in this judicial district and to further disenality Judge William G. Young from presiding over the aforementioned case. I further request that a judicial officer in The District of Massachusetts other than Indge Young be selected to rule on this motion in solidarity with and out of respect for the foundational rule of law, which reflects a belief that in the fair administration of instice, no man can be judge in his own case - no matter how exalted his station or righteous his motives. I am also respectfully asking for a hearing on this motion, should the court deem it appropriate. Finally, I assert and reserve my right on the record to appeal any adverse ruling on this motion to a higher court, should it need to be invoked, I thank the court for considering my motion

> Respectfully Submitted, Joshua Hall Pro Se
